VIEW FROM RESIDENTIAL TERRACE  
DECKING MATERIAL: BISON IPÊ WOOD TILES

THE INFINITY SAN FRANCISCO demonstrates unique and free flowing architecture, which compliments the Bay's character and offers panoramic views. The creative connection of expansive scenery with living space bestows a truly idyllic urban home set in the heart of San Francisco.

Preassembled Bison Ipê Wood Tiles provide real-wood warmth and natural authenticity to each outdoor residential terrace. The Bison Deck Supports system is uniquely designed for elevating decking materials over surfaces that slope and require adequate drainage.

### Bison Highlight:

Bison offers the urban architect and builder upscale, real-wood beauty with screw-to-adjust installation efficiency for rooftop pedestrian decks.

## BISON WOOD TILES

- Preassembled wood tiles are heavy-duty, durable and long-lasting
- Wood species available are Massaranduba (FSC Certified) and Ipê
- Low maintenance wood tiles are 3 times harder than Red Oak
- Upscale appearance – cost effective and fast to install!
- Available in smooth or scuff resistant surface
- Each tile is approximately 2 x 2 ft or 2 x 4 ft.

**Install decks** on grade, cover cracked concrete and over sloping rooftop surfaces including terraces, balconies and rooftop gardens.
